STARTED

WE PASSED THE PRESELECTION OF THE CLIMATE-NEUTRAL AND SMART CITIES MISSION PROJECT

As a result of our application to the 'Climate-Neutral & Smart Cities Mission' program, which aims to fight against the climate change and encourage the digital change in cities, we, under the leadership of Bodrum Municipality, passed the pre-selection stage.

This project aims to accelerate the green and digital transformations in cities as climate recovery largely depends on urban action.

SOIL TALKS

On Sunday, February 6, we hosted the second of "Soil Talks" events, in which the Vice President of Bodrum Seed Association Gürkan Ovaloğlu and Co-founder of Bodrum Entrepreneurship Hasan Michał Akkaya took part as speakers. In this event, topics such as improving the soil and increasing productivity of the soil were discussed.

We would like to thank the valuable participants who did not leave us alone in this beautiful event.

THE CONSTRUCTION OF THE PORTAL THAT FALLS ON BOLL IN THE BLUE GENERATION PROJECT HAS STARTED

The design of the portal for Bodrum Living Lab started within the scope of the 'Mavi Nesil: Training, Skills and Employability Development Center in the Maritime and Yachting Sector' project developed by MSKU Bodrum Maritime Vocational School to meet the intermediate staff needs of the maritime industry, the protocol of which was signed last November, has started

We will contribute more in the future on behalf of this project, which we have been contributing to and been proud to be a part of.

Bodrum Living Lab, is a member of ENoLL (European Network of Living Labs) !
