BLL ENTREPRENEUR DAY 14

Başakşehir Living Lab, the center of technology and innovation, continues to spread entrepreneurship and provide an environment for new business formations with information technologies and design-based innovation. In this context, the 14th Entrepreneur Day of Başakşehir Living Lab, where innovative projects that will make life easier compete, was held on June 2 in the new smart and environmentally friendly service building of Başakşehir Municipality.

Ömer Onur, General Coordinator of Başakşehir Living Lab, started the event with a mission speech and gave detailed information about the 14th Entrepreneur Day. He underlined that they will continue to support entrepreneurs who realize innovative ideas and bring them together with investors.

Mayor of Bařakřehir Yasin KARTOĐLU,

While honoring the event with his speech on the role of Local Governments in Technology, Innovation and Entrepreneurship;

Bařakřehir Living Lab Co-Founder Ersin Pamuksüzer's evaluation and suggestions on "Entrepreneurship and Doing Business in the Future" were welcomed with interest.

Yasin KARTOĐLU, Mayor of Bařakřehir

The final evaluation, in which Bodrum Living Lab participated as a jury member, was made among 22 young entrepreneurs who made it to the finals among 95 projects. Presentations took place both in person and online.

**Ibrahim Kurt with the "Newborn Baby DNA Test" project
in first place,**

**Can Zengineli's "Plantric" project, which transforms organic waste into compost,
organic fertilizer, biogas and liquid fertilizer,**

**Orçun Emre Bakirciođlu was awarded third place with his project "Cyboard", a
single-wheeled smart transportation vehicle.**

To date, 861 projects have applied to Entrepreneur Days, more than a hundred of which have turned into commercial products. You can follow the new semester trainings and events of Bařakřehir Living Lab on the website.

HORIZON2020 Programı Sustainable Urban Innovation to Manage Accessibility (Innovations For Managing Sustainable Urban Accessibility)

TUBITAK held an information meeting on Tuesday, 28 June 2022 for the calls for "Smart, Clean and Integrated Transport" and "Urban Accessibility and Connectivity", which will be managed under the Horizon2020 Call for "Innovation to Manage Sustainable Urban Accessibility".

Horizon Europe Priorities

Sustainable Development Goals

1. No poverty
2. Zero Hunger
3. Good Health and Well-being
4. Quality Education
5. Gender Equality
6. Clean Water and Sanitation
7. Affordable and Clean Energy
8. Decent Work and Economic Growth
9. Industry, Innovation and Infrastructure
10. Reduced Inequalities
11. Sustainable Cities and Communities
12. Responsible Consumption and Production
13. Climate Action
14. Life Below Water
15. Life on Land
16. Peace, Justice and Strong Institutions
17. Partnerships

Budget projected to be allocated to climate change: 35%

The Innovation call, the last call to be launched under the EN-UAC project, will finance applied research and innovation/implementation projects. Innovation-focused research and development projects are expected to address new practices, related technologies, business models and policies in a way that facilitates cities to conceptualize, pilot and scale up these measures.

Consortium Structure

The countries participating in the call are Austria, Belgium, Lithuania, Sweden and Turkey, and the call can be applied for by forming a consortium of at least two eligible applicants from at least two of the different countries participating in the call.

At least one partner of the consortium must be a city, municipality or regional authority or organization (public or private) responsible for or involved in transport/mobility infrastructure or services in a city, municipality or region, or a transport/mobility related NGO, either as a co-applicant or as a cooperation partner.

HORIZON EUROPE - Civil Security for Society 2022

Horizon Europe – Cluster 3: Civil Security for Society 2022

The information day for the Civil Security for Society 2022 calls was held on 28 June 2022. In addition to the general Cluster 3 presentation, information was provided on the new understanding of impact in Horizon Europe, legal and financial issues, ethics, security considerations, gender and the roles of social and human sciences and justice and home affairs institutions.

During the meeting, the following calls were announced in line with the following objectives:

- Disaster-resilient Communities
- Border Management
- Supporting security research and innovation activities
- Combating Crime and Terrorism
- Protection of infrastructures
- Enhancing cyber security

STAKEHOLDER INTERVIEWS

Bodrum Living Lab, Bodrum Municipality and Muğla Sıtkı Koçman University continue stakeholder meetings to evaluate possible consortium collaborations.

Considering the benefits of the Net Zero CITIES nomination process, it is expected that the relevant committee will be established and stakeholder consultations will be structured within the framework of the relevant regulations.

"NetZeroCities, the EU Mission Platform for Climate Neutral and Smart Cities, will work as a service-oriented platform providing tailor-made advice and comprehensive support to help cities overcome the structural, institutional and cultural barriers they currently face to achieve their net zero targets."
